

## Directions:

From anywhere on the I-10 or I-12:

1. Proceed to the I-10 / I-110 split located near downtown Baton Rouge at the foot of the Mississippi River Bridge.
2. Take the I-110 North to the end (about 8 miles). That will be US 61.
3. Take US 61 NORTH toward St. Francisville approximately 5.5 miles.
4. You are looking for FARRO Chemical at the corner of US 61 and West Irene Rd.
5. Turn left on West Irene Rd and proceed to the end (approximately 2.4 miles)
6. The end of the road IS the EVO center. It is located inside of the State Police JESTC facility.

## Advice:

1. Don't SPEED. US 61 has lots of speed traps.
2. Bring sunscreen.
3. Bring cash. Concessions will be offered. The nearest fast food is 8+ miles away.

This is CENLA's first event here. Please have patients with us as this facility is new ground for us. If you see anything that could be done better, please bring it to our attention. We welcome your input. **THANKS**
